

The Stanley Cooper Sr. Chapter of Trout Unlimited

The main mission of The Stanley Cooper Sr. Chapter of Trout Unlimited is to preserve, protect and enhance wild trout, salmon and steelhead fisheries and their habitat.

Our local chapter, founded in 1987, has a current membership of 250 and is involved in both local and national conservation efforts.

- We have limed Bowman's Creek and formed The Bowman's Creek Watershed Association.
- In the past year we have successfully conducted our 8th Annual youth camp, where 30 students from Wyoming Valley learned entomology, fly fishing and the ecological value of a trout stream.
- We have recently teamed with Project Healing Waters to actively rehabilitate wounded war vets through all aspects of fly fishing and fly tying.
- We are working diligently in partnership with the FUDR to establish consistent releases on the Upper Delaware, the finest wild trout tail-water fishery on the East Coast. Members of PATU's Delaware River Committee, including chairman Lee Hartman, are Stan Cooper Sr. TU members.
- Stan Cooper Sr. TU is currently looking into the possibility of creating better access to the Lehigh River between Stoddardsville and the Francis E. Walter Reservoir.

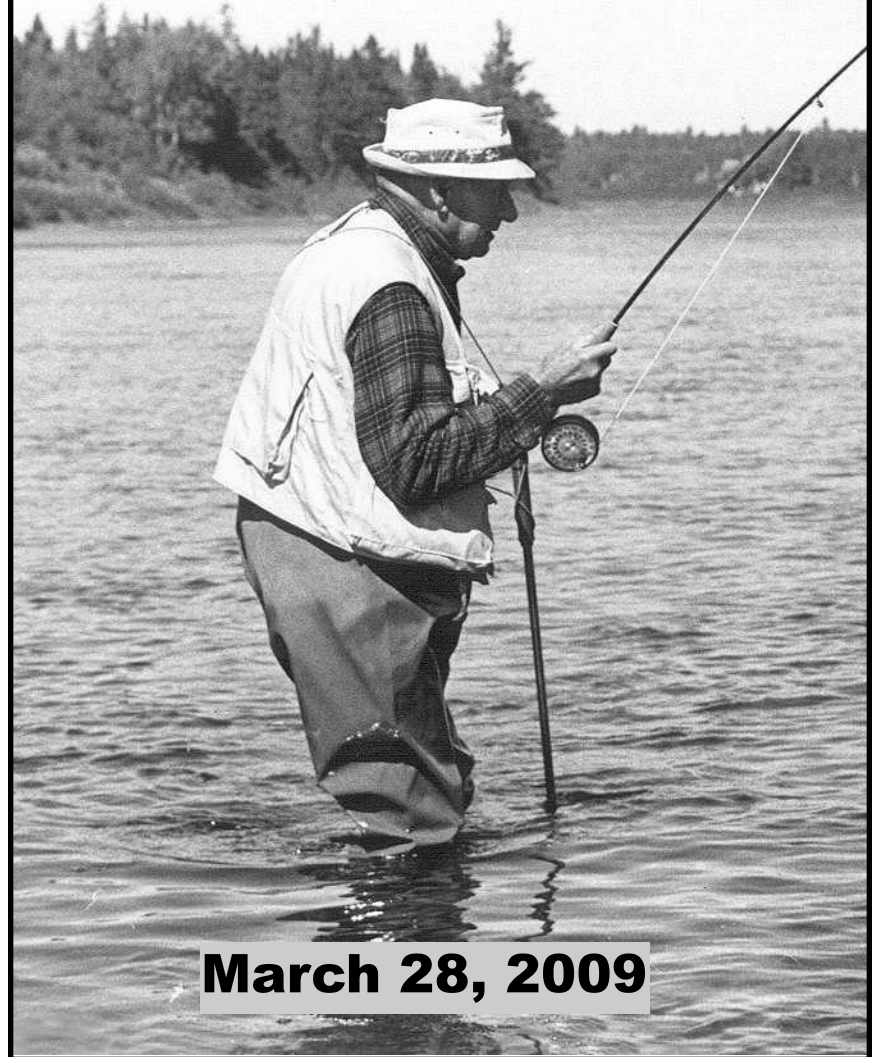

The Stanley Cooper Sr. Chapter of Trout Unlimited meets the second Tuesday of every month (except June, July & August) at the VFW Post 283, Wyoming Avenue, Kingston at 7:30 p.m.

Programs are free and open to the public - everyone is invited. We welcome your participation.

Members receive our newsletter which has up to date information on upcoming projects and articles on the current activities of the chapter.
